## DETAILED ACTION

### *Election/Restrictions*

1. This application is in condition for allowance except for the presence of claims 14-26 directed to species non-elected without traverse. Accordingly, claims 14-26 have been cancelled. ✓

### *Allowable Subject Matter*

2. Claims 1-11, 13 and 29-31 are allowed.
3. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or make reasonably obvious the removal of tie bars from a leadframe, using tape as a support.

**Sato et al** (USPN 6,249,042 B1) teaches the use of polyimide tape in the singulation of a ribbon to produce individual lead members. **Tan et al** (US Patent Application Publication 2004/0104457 A1) teaches the use of a sheet of tape **804** to support inner leads **827** in the same plane as a die pad **823** during the singulation of inner leads **827** from outer leads **828**. However, **Tan et al** does not teach that the tape covers the top surfaces of the tie bars (**829**) and the top surface of the dambar (**825**) [see Figs. 8A-8C].

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
